

## CASE STUDY: MEDICAL

# Hospital earns a healthy rebate with Paymerang

### The Client

Teton County Hospital District, doing business as St. John's Medical Center (St. John's), provides medical services in the Teton, Wyoming region. As a gateway to Grand Teton National Park and Yellowstone, St. John's services the local community and travelers from around the world.

### The Challenge

With an accounts payable workload that had tripled in three years due to rapid hospital expansion, St. John's was looking for a way to streamline and eliminate routine tasks, pay their suppliers electronically and earn cash rebates in the process. The addition of new service lines and construction projects required a flexible and scalable solution. After speaking with several banks, they decided to search elsewhere for a solution that would fit their needs, not the other way around.

### The Solution

Paymerang worked with St. John's to implement a fully electronic AP solution in 60 days, requiring only 20 hours of time from the finance team and zero IT resources. We were able to set up a quick check-file upload, enroll all their vendors and drastically reduce their workload.

**"Paymerang has far exceeded our expectations in terms of quick implementation, efficiency gains and cash rebates. We are thrilled with the program."**

– Leslie Turner, Accounts Payable Manager

### The Results

**\$60K**

in additional revenue from cash rebates

**\$15K**

in direct cost savings by moving to electronic payments

**300+ hours**

of administrative time saved each year

**Increased scalability**

through flexible technology and processes
