PA payment automation

Paymerang’s Payment Automation takes the manual work out of the accounts payable process, saving you thousands of hours annually while reducing your risk of payment fraud. This is extremely critical as the education industry is the number one target for fraud.

greater efficiency
through encrypted account data and two levels of authentication

greater security
through reconciliation of all payments made through our network

greater speed
through fast implementation and an easy-to-use interface

greater support
through a dedicated team of payment specialists

IA invoice automation

Manually processing a paper invoice is challenging for education institutions because of interoffice communication. Chasing down approvals from different department heads is costly and time-consuming, making it impossible to make payments on time and take advantage of early pay discounts. It also increases an organization’s risk of fraud.

greater accuracy
through intelligent data capture, reducing errors by 80%

greater visibility
through processing, giving your team a fail-safe electronic paper trail

greater speed
with electronic approval & routing, speeding up processing time by 80%

greater savings
by allowing finance teams to take advantage of early pay discounts and create stronger relationships with vendors

Paymerang seamlessly works with leading ERPs, including:
